25
26 DECLARATION OF BILL HARTZER IN SUPPORT OF OPPOSITION
27 TO PARTIAL MOTION FOR SUMMARY JUDGMENT
28 International Metaphysical Ministry v. Wisdom of the Heart Church Case No. 4:21-cv-08066 KAW

DECLARATION OF BILL HARTZER

I, Bill Hartzer, declare as follows:

1. Defendant Wisdom of the Heart Church's counsel ("Defendant"), Valerie F. Horn, Esq., retained me as an expert in this case, to offer opinions regarding in certain internet marketing activities that have affected the online visibility of the Defendant, as well as internet activities that have caused confusion between the Plaintiff and the Defendant's brands. I submit this declaration in support of Defendant's Opposition to Plaintiff International Metaphysical Ministry's Motion for Partial Summary Judgment.

2. I received a Bachelor of Arts degree in English (with an emphasis on Professional and Technical Writing) from the University of South Florida in 1992. From 1992 to 2001, I worked as a technical writer for Fischer International Systems, PageMart Wireless, and Texas Instruments. From 2001 to 2005 I worked as a technical writer, webmaster, and SEO specialist for Intec Telecom Systems. From 2005 to 2008 I worked as a search engine marketing manager at MarketNet. In 2004, I founded the Dallas/Fort Worth Search Engine Marketing Association, a group of search engine optimization and search engine marketing industry professionals. Since 2005, I have held positions at leading web design firms and

1 digital marketing agencies in the Dallas, Texas area, all focusing on SEO (Search
2 Engine Optimization) and SEM (Search Engine Marketing). SEO focuses on
3 website placement in the search engines' organic or "natural" search engine results,
4 and SEM focuses on managing an advertiser's keyword ads in the search engine
5 results. Advertisers pay "per click" for every click on certain keywords by internet
6 users that brings that internet user to the advertiser's website.
7
8

9 3. In 2016, I founded my own consulting firm, Hartzer Consulting, LLC.
10 My work focuses on providing highly technical SEO audits of websites to
11 businesses worldwide, as well as providing SEO (search engine optimization) and
12 SEM (search engine marketing) services, such as ongoing monthly marketing
13 services. I also provide domain name consulting, acquisition, brokerage, and
14 forensic domain name research services. My clients include operators of business-
15 to-consumer ("B2C") and business-to-businesses ("B2B") websites, domain name
16 registrars, and domain name registries.
17
18
19

20 4. In 2020, along with Robert Monster, the CEO of Epik, a domain name
21 registrar, I founded DNProtect, a company that provides Domain Name Protection
22 and Stolen Domain Name Recovery Services. I personally provide the stolen
23 domain name recovery services for clients of DNProtect, and am one of the world's
24
25

27 TO PARTIAL MOTION FOR SUMMARY JUDGMENT
28 International Metaphysical Ministry v. Wisdom of the Heart Church Case No. 4:21-cv-08066 KAW

1 leading experts when it comes to recovering stolen internet domain names. I am an
2 expert in forensic internet domain name research, a specialty that I have acquired
3 while helping clients recover their stolen domain names.
4

5 5. I also have published numerous articles, research papers, and case
6 studies on SEO, search engine marketing (“SEM”), and domain names. I have
7 spoken at over 100 conferences on SEO, search engine marketing (“SEM”), and
8 domain names since 2003.
9

10 6. I have bought and sold hundreds of internet domain names since the
11 late 1990s and actively maintain a portfolio of domain names.
12

13 7. I have over 25 years of experience in the fields of SEO, SEM, domain
14 name strategy, and online marketing. My resume, together with additional
15 biographical information and a list of all of my publications authored within the last
16 ten years, is attached as **Exhibit 1**.
17

18 8. In the last six years, I testified as an expert in United States Federal
19 Court in one case, *A.B. Cernelle v. Graminex, LLC*, Case No. 03cv10291 (E.D.
20 Mich.). I have also testified as an expert witness in the Grand Court of the Cayman
21 Islands, *Michelle Schilling v. Frank Schilling*, Case Number FAM 227 of 2017. I
22 was deposed in the case United States District Court for the Southern District of
23
24
25

26 DECLARATION OF BILL HARTZER IN SUPPORT OF OPPOSITION
27 TO PARTIAL MOTION FOR SUMMARY JUDGMENT
28 International Metaphysical Ministry v. Wisdom of the Heart Church Case No. 4:21-cv-08066 KAW

1 Texas, Houston Division, *Opportune, LLP v Oportun, Inc. and Oportun, LLC*, Case
2 Number 4:18-CV-7. I provide expert witness reports and was deposed in March
3 2022 in the case *Todd Graves Golf School, LLC v. Kirk Alan Junge, D/B/A Single*
4 *Plane Golf Schools*, Civil Action No. 9:21-cv-80793-AMC, United States District
5 Court, Southern District of Florida, West Palm Beach Division. I have provided
6 expert witness reports, supplemental reports, and rebuttal reports in other cases, all
7 of which are listed in Exhibit 1.

10 9. **Exhibit 2** lists the documents, spreadsheets, and materials I reviewed
11 and considered in forming my opinions in this case. To the extent new facts are
12 made known to me, I reserve the right to supplement my opinions.

14 10. Defendant's counsel, Valerie F. Horn, Esq., asked me to review search
15 engines' auto-suggest keywords as they relate to the Defendant's brand and
16 trademark. In particular, there is one auto-suggest result that I was asked to review,
17 as it relates to the search query phrase "University of Metaphysical Sciences", the
18 Defendant's brand and trademark.

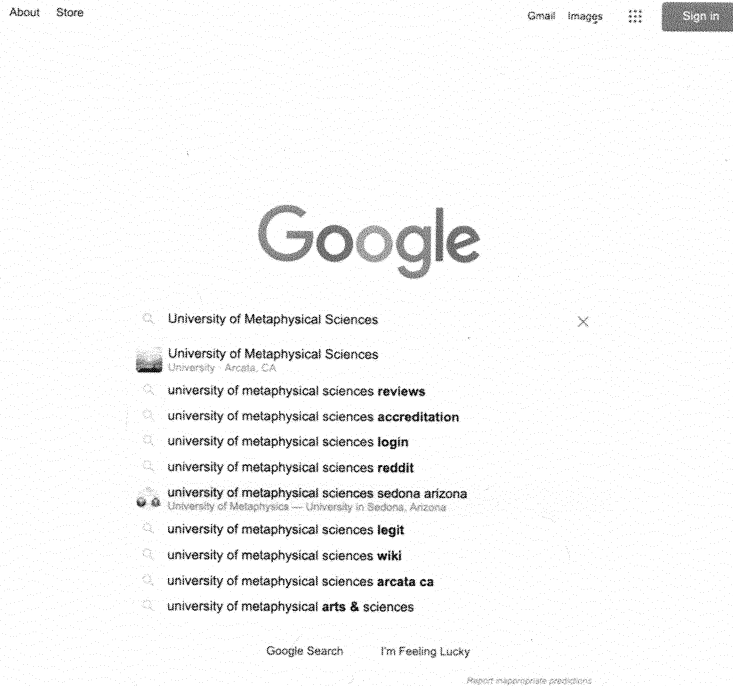

Image 1: Google Search auto-suggest on July 22, 2022, using Google Incognito Mode, screenshot filename Screen Shot 2022-07-22 at 8.30.30 PM.png

Image 1 is the screen shot of a search that I started to perform at the Google.com search engine for the Defendant's brand and trademark, which shows the auto-suggest feature. In this example, the Defendant's brand and trademark is combined with "Sedona Arizona" along with the name of the Plaintiff's brand.

When a visitor to Google.com begins a search for a keyword (called a search query), when they begin typing, Google automatically starts making suggestions. As the keyword is typed, Google continues to refine the suggested keywords. This

1 is referred to a “Auto-Suggest”, a feature that is used by the majority of search
2 engines. Google explains this feature in a blog post called “How Google
3 autocomplete works in Search” on their blog
4 (<https://blog.google/products/search/how-google-autocomplete-works-search/>).
5 Google calls this feature “autocomplete”, however it is routinely referred to as
6 “auto suggest” industry-wide. Google further explains: “These are our best
7 predictions of the query you were likely to continue entering... How do we
8 determine these predictions? We look at the real searches that happen on Google
9 and show common and trending ones relevant to the characters that are entered and
10 also related to your location and previous searches.” It’s important to note that
11 Google shows common searches and trending ones that are entered.
12 It is widely known in the search engine optimization industry (SEO industry), that
13 these “auto suggest” results can be manipulated. For example, if one wanted to
14 ensure that a certain keyword showed up in the “auto suggest” for a certain
15 keyword phrase, one could employ various tactics to manipulate the results. For
16 example, if I wanted my name, “Bill Hartzer” to appear at the end of a keyword
17 phrase such in the auto-suggest results, such as “California beaches Bill Hartzer”, I
18 could have many different “people” search for that keyword phrase “California
19
20
21
22
23
24
25

26 DECLARATION OF BILL HARTZER IN SUPPORT OF OPPOSITION
27 TO PARTIAL MOTION FOR SUMMARY JUDGMENT
28 International Metaphysical Ministry v. Wisdom of the Heart Church Case No. 4:21-cv-08066 KAW

beaches Bill Hartzler”, and my name would start appearing in auto suggest results at Google when Google visitors begin typing the keyword “California Beaches”. This tactic of manipulating Google’s auto suggest feature is generally “frowned upon” by Google, and it is widely considered to be a marketing tactic that is “against the rules” by the SEO industry as a whole.

11. There are several third party services that anyone can pay for that, for a fee, will manipulate the Google auto-suggest feature, adding any keyword to the auto-suggest results. One such service is AutoSuggest.me, a website that allows you to pay them for the service of manipulating the auto-suggest feature.

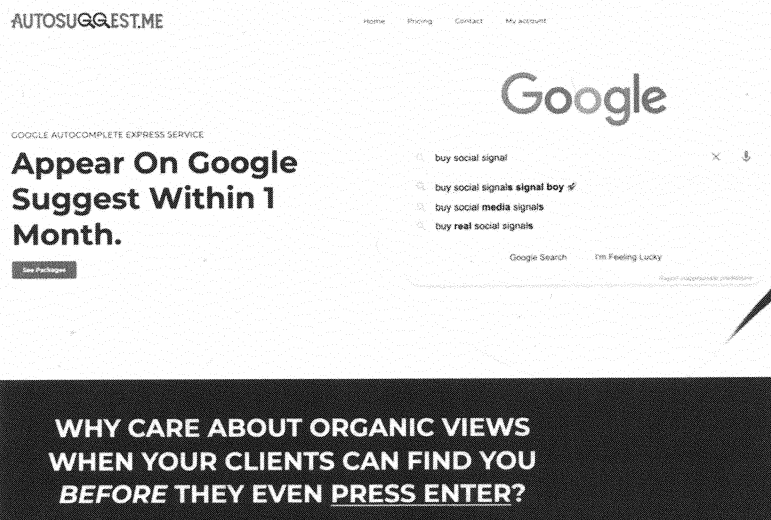

Image 2: Screen Shot of the third-party service Autosuggest.me’s home page, filenameScreen Shot 2022-07-22 at 8.53.27 PM.png

DECLARATION OF BILL HARTZER IN SUPPORT OF OPPOSITION
TO PARTIAL MOTION FOR SUMMARY JUDGMENT
International Metaphysical Ministry v. Wisdom of the Heart Church Case No. 4:21-cv-08066 KAW

AutoSuggest.me (<https://autosuggest.me>) offers a service to get your keyword (or brand name) into the Google auto-suggest feature within 1 month's time. Another service, Iamautocomplete (<https://www.iamautocomplete.com/>) offers a similar service.

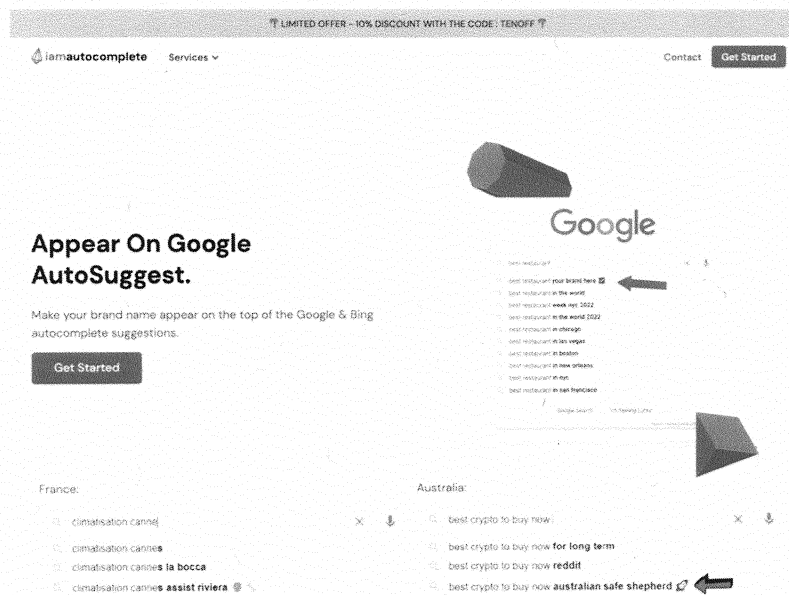

Image 3: Screen Shot of the third-party service Iamautocomplete.com's home page, filename Screen Shot 2022-07-22 at 8.57.43 PM.png.

The Iamautocomplete service, on their website's home page, says that your keyword will start to show up in Google's auto-suggest feature within about 20 days. They also say, "Just be informed that if you cancel the service, your Google Autosuggest will disappear after 1 week." This is important to note, as this implies

1 that they know that consistently performing the keyword search on a regular basis
2 will get the keyword into the auto-suggest list. And once you stop paying them the
3 keyword will disappear.
4

5 12. I performed my own research about the “University of Metaphysical
6 Sciences sedona arizona” keyword in a few different ways. First, I used the
7 industry-standard SEMrush tool to research this keyword phrase in particular. The
8 SEMrush tool allows you to perform a keyword search and the tool returns
9 information about the keyword, such as how many searches per month are
10 performed for the keyword or keyword phrase. In this particular case, I found that
11 there are an estimated 50 searches per month performed for “University of
12 Metaphysical Sciences sedona arizona”.
13
14
15
16
17
18
19
20
21
22
23
24
25

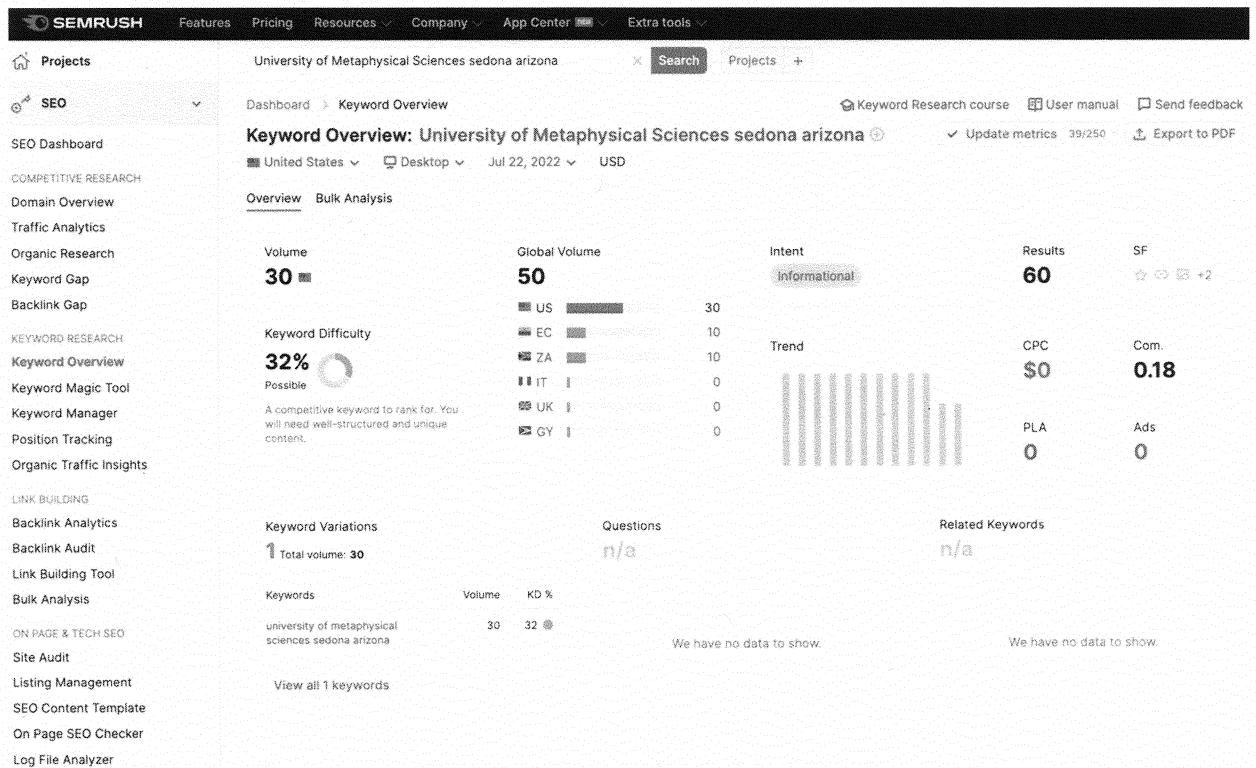

Image 4: SEMrush data for a keyword search for "University of Metaphysical Sciences Sedona arizona", filename Screen Shot 2022-07-22 at 9.06.48 PM.png

I found that there are 50 searches per month performed for this keyword phrase globally. There are 30 searches per month performed from the US, 10 searches performed per month from Ecuador, and 10 searches per month from South Africa.

13. I performed the same exact search (University of Metaphysical Sciences) at the 2nd most popular search engine, Microsoft Bing, and did NOT find that this keyword phrase is part of Microsoft Bing's auto-suggest feature.

DECLARATION OF BILL HARTZER IN SUPPORT OF OPPOSITION
TO PARTIAL MOTION FOR SUMMARY JUDGMENT
International Metaphysical Ministry v. Wisdom of the Heart Church Case No. 4:21-cv-08066 KAW

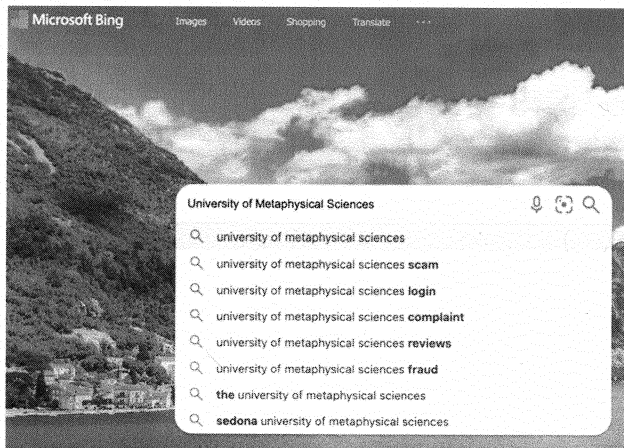

Image 5: Screen shot of a keyword search's auto suggest at Microsoft Bing, filename Screen Shot 2022-07-22 at 9.25.38 PM.png

It is notable that the “University of Metaphysical Sciences Sedona arizona” keyword phrase does not show up as a part of the auto-suggest feature a Microsoft Bing. This is important to note because it has been my experience that when there are a significant number of searches done for a keyword at Google, the same keyword or keyword phrase will also typically show up in the auto-suggest at Microsoft Bing. Being the #2 most-used search engine, based on current market share of the search engines, as well as my own personal experience, the keywords are generally similar if they are legitimately being performed by the public. Typically, in my experience, when there are 50 searches per month for a keyword at Google, there are 10 percent of that number of searches performed at Microsoft

1 Bing. This would put this number around 5 searches per month at Microsoft Bing
2 for the “University of Metaphysical Sciences Sedona arizona” keyword phrase.
3 This may not be enough searches per month at Microsoft Bing to warrant being
4 listed in their auto-suggest results. However, there is another keyword phrase that
5 shows up, “Sedona university of metaphysical sciences”, which suggests to me that
6 there may be some brand confusion occurring between the two brands, the
7 Defendant’s brand and the Plaintiff’s brand.
8

10 14. It is my opinion that there may be some sort of manipulation going on
11 Google’s auto suggest feature. This is due the fact that some keyword searches tend
12 to be done from countries outside the United States, such as from Ecuador and
13 South Africa. Furthermore, the number of keyword searches for this “very long”
14 keyword phrase is odd, especially since “Sedona arizona” is being added to the end
15 of the Defendant’s mark. The number of searches performed at the Microsoft Bing
16 search engine, whereas there are no keywords “Sedona arizona” being appended to
17 the end of the Defendant’s brand and trademark also suggest to me that there is
18 some sort of manipulation going on, as well.
19

21 15. I reviewed the search engine results of the Defendant’s brand and
22 trademark at Google, specifically how it relates to the keyword search query
23

24
25 DECLARATION OF BILL HARTZER IN SUPPORT OF OPPOSITION
26 TO PARTIAL MOTION FOR SUMMARY JUDGMENT
27 International Metaphysical Ministry v. Wisdom of the Heart Church Case No. 4:21-cv-08066 KAW
28

“University of Metaphysical Sciences Sedona arizona” that appears in the Google auto-suggest results, shown in image 1 above. After clicking the search result in the auto-suggest of “University of Metaphysical Sciences Sedona arizona”, I was presented with Google’s search engine results page, shown below, in image 6.

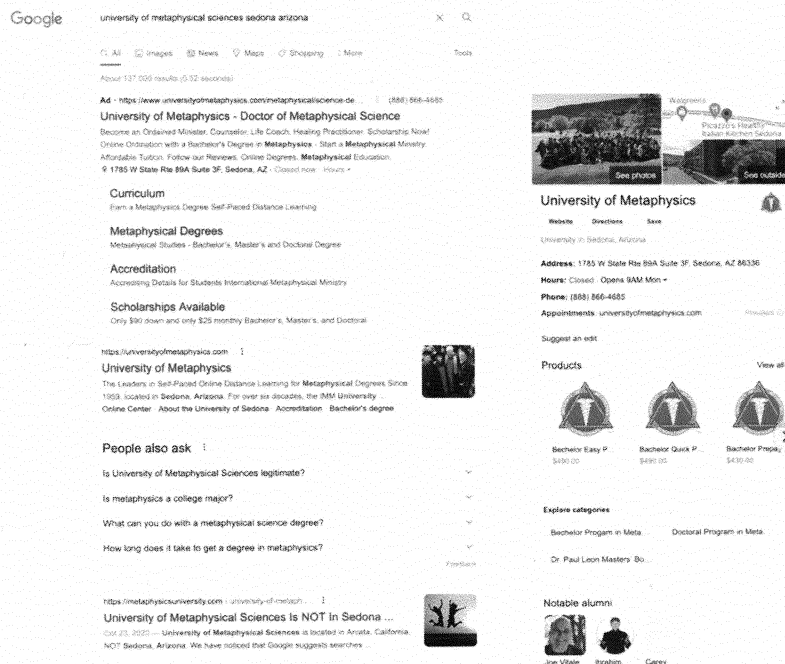

Image 6: Search results page at Google after clicking auto suggest result, filename Screen Shot 2022-07-22 at 9.44.43 PM.png

On this search engine results page, I was presented first with a Google ad for the Plaintiff, even though I specifically searched for the Defendant’s brand and trademark. This indicates to me that the Plaintiff is most likely paying for clicks in Google Ads for the Defendant’s brand name and trademark. This is not specifically

DECLARATION OF BILL HARTZER IN SUPPORT OF OPPOSITION
TO PARTIAL MOTION FOR SUMMARY JUDGMENT
International Metaphysical Ministry v. Wisdom of the Heart Church Case No. 4:21-cv-08066 KAW

1 a violation of Google Ads' policies (they allow you to bid on any set of characters
2 (any words), even trademarks. However, it is against their policy to use a trademark
3 in the ad copy of a Google Ad. Because the ad shows up for the Defendant's brand
4 and trademark, the Plaintiff has not included the Defendant's brand and trademark
5 in the Plaintiff's list of "negative keywords". The negative keyword list is a list
6 maintained by the advertiser to make sure that certain keywords do not trigger their
7 ad to be shown when that keyword is searched.
8
9

10 16. The first "organic" or "free" search result I see is the University of
11 Metaphysics, as well as their Google Maps listing, also referred to as their Google
12 Business Profile listing. This is a concern, as the search query performed was for
13 the Defendant's brand and trademark, not the Plaintiff's brand. Note that the
14 Defendant's website is also shown, however, the Plaintiff's website is showing at
15 the top of Google's search engine results page.
16
17

18 17. When Google appears to be confused between two separate brands,
19 companies, or trademarks, it has been my experience that there are specific reasons
20 as to why Google's confused. This is cause of the confusion can usually be
21 determined by an advanced technical SEO specialist or consultant such as myself. It
22 is my opinion that there are usually a few different reasons as to why there Google
23
24
25

1 is confused as to which brand to show in the search engine results pages. One
2 reason is that the search query performed included a keyword that caused Google to
3 prefer one brand over the other. The addition of the keyword phrase “Sedona
4 arizona” along with the Defendant’s brand and trademark may be causing Google
5 to prefer to show the Plaintiff’s website, especially because the Plaintiff’s website
6 appears to be using the words “metaphysical” and “university” on their website’s
7 home page. Another reason is that one particular brand, company, or trademark is
8 not as “powerful” in Google’s eyes, and there aren’t enough searches per month to
9 indicate to Google that the searcher is searching for one particular brand, company
10 name, or trademark. It is my opinion that this is not the case here, as in my own
11 research I found that there are a significant number of searches per month (400+
12 searches per month for the Defendant’s brand and trademark according to
13 SEMrush), and the Defendant’s brand and trademark is well-established. If the
14 Defendant’s brand and trademark were new, not well established, and there weren’t
15 many searches per month for the brand or trademark, then that might be the reason
16 why the Plaintiff’s website appears higher in the searches for a particular keyword
17 search. But this is not the case here, in my opinion. The third reason typically is
18 some sort of manipulation is being done, whereas a website or company has hired
19
20
21
22
23
24
25

26 DECLARATION OF BILL HARTZER IN SUPPORT OF OPPOSITION
27 TO PARTIAL MOTION FOR SUMMARY JUDGMENT
28 International Metaphysical Ministry v. Wisdom of the Heart Church Case No. 4:21-cv-08066 KAW

1 an SEO specialist to “optimize” their website for certain keywords and keyword
2 phrases. Based on my research, it is my opinion that the Plaintiff has hired an SEO
3 specialist or someone who has advanced knowledge of SEO techniques to perform
4 search engine optimization on the Plaintiff’s websites. I was able to find 3 websites
5 that are owned by the Plaintiff, the primary one being
6 UniversityofMetaphysics.com.
7
8

9 18. In my research, I reviewed the primary website’s search engine rankings
10 and positions, as well as some of the search engine ranking factors that influence the
11 search engine results pages. For example, one of the “search engine ranking factors”
12 is how other websites refer to your website, and how the link to your website. This is
13 commonly referred to as “anchor text”. When one website links to you with the
14 clickable “anchor text” and that anchor text includes certain keywords, such as a
15 company name, brand, or trademark, the search engines see this and those keywords
16 in the anchor text will influence the search engine rankings and positions. For
17 example, I found instances where the Plaintiff’s website was linked on web pages
18 that were clearly about the Defendant. Therefore, since the web pages were about the
19 Defendant, and the links were pointing to the Defendant’s website, the search engines
20
21
22
23
24
25

1 could possibly be confused, thinking that there is an association between the
2 Defendant's brand and trademark and the Plaintiff's website.

3
4 19. Since website links to your website and to your competitor's website
5 (a competitor including any website or web page showing up in the search engine
6 results for your desired keyword) are an important search engine ranking factor,
7 third party tools (along with the search engines themselves) provide link data. For
8 example, using a third party link tool such as Majestic.com or aHrefs.com, you can
9 see the links that are pointing to any website or URL. Google provides you with
10 your own link data through their Google Search Console tool. Third party tools,
11 such as Majestic.com (an industry standard tool I use daily for my consulting
12 work), will give you information about each link to a website. This information
13 includes the URL of the link (where it is located), what type of link it is (an image
14 link or an anchor text link), the web page's title of where the link appears, as well
15 as when Majestic.com's crawlers first saw the link, when they last saw the link, and
16 other information about the page where the link appears, such as the topic of the
17 page. What's relevant in most cases, the data that I usually am interested in seeing,
18 is the URL of the link (what web page links to the website), as well as the "anchor
19
20
21
22
23
24
25

1 text”, the clickable text that appears, and which URL the link points to (the page it
2 links to) on the website.

3 20. I performed research to review the links that are pointing to the
4 Plaintiff’s website, UniversityofMetaphysics.com. Part of my research indicated that
5 some sort of manipulation was being done to influence the Plaintiff’s website,
6 UniversityofMetaphysics.com, to show up in the #1 organic search engine result
7 (right after the Google Ad) for the search “University of Metaphysical Science
8 Sedona Arizona”. As I mentioned above, some of the individual words that appear in
9 that keyword phrase (“University of Metaphysical Science Sedona Arizona”) DO
10 appear on Plaintiff’s UniversityofMetaphysics.com’s home page individually.
11 During my initial research, I saw links from other websites that were pointing to the
12 Plaintiff’s website that referenced the Defendant’s brand and trademark, University
13 of Metaphysical Sciences. In other instances, I came across web pages that were
14 created about the Defendant or the Defendant’s brand and trademark, that were then
15 linked to the Plaintiff’s website or where the Plaintiff’s website was prominently
16 linked or prominently displayed. An example of this occurrence is a web page that is
17 about the Defendant’s brand and trademark (University of Metaphysical Sciences)
18 that have links or prominent mentions of the Plaintiff’s website. An example of the
19
20
21
22
23
24
25

Screen Shot 2022-07-25 at 9.42.13 PM.png

In the image above, it clearly mentions "university of metaphysical sciences", the Defendant's brand and trademark, alongside the Plaintiff's website. This is just one example, I have provided additional data in Exhibit 3 of this Declaration that show the URLs a lot more examples of web pages that includes the Defendant's brand and

DECLARATION OF BILL HARTZER IN SUPPORT OF OPPOSITION
TO PARTIAL MOTION FOR SUMMARY JUDGMENT
International Metaphysical Ministry v. Wisdom of the Heart Church Case No. 4:21-cv-08066 KAW

1 trademark but associates that brand and trademark with the Plaintiff's website. The
2 example above appears in the data provided in the file universityofmetaphysics.com-
3 backlinks. Additional data that I reviewed are provided in additional files listed in
4 Exhibit 3, as well.

6 21. During my review of the auto-suggest feature, as well as the search
7 engine results page for the keyword phrase I reviewed, I found that there most
8 likely has been a diversion of website traffic away from the Defendant's brand and
9 trademark, in favor of the Plaintiff. For example, it is clear to me that when I
10 searched for the Defendant's brand and trademark, the Plaintiff's brand appeared in
11 the auto-suggest, suggesting that either there was manipulation of the auto-suggest
12 going on, or that there really are 50 searches per month for a keyword that is
13 potentially causing confusion. Therefore, it is my opinion that at least 50 visitors
14 per month were most likely diverted away from the Defendant's brand and
15 trademark, in favor of the Plaintiff, causing a loss of website traffic to the
16 Defendant's website.

21 22. It is my opinion that there is most likely some sort of manipulation
22 being done of Google's auto-suggest results, which appears to have been going on
23
24
25

1 for at least several months. If manipulation is not being done, there is consumer
2 confusion between the Defendant's brand and trademark and the Plaintiff's brand.

3 23. It is my opinion that the Plaintiff's Google Ads are showing up for the
4 Defendant's brand and trademark. Furthermore, it is clear to me that the Plaintiff
5 has not taken the extra step to include the Defendant's brand and trademark in their
6 negative keywords list in Google Ads.
7

8 24. It is my opinion that there is brand confusion between the Plaintiff's
9 brand and the Defendant's brand and trademark, and the Plaintiff has taken steps to
10 use search engine optimization techniques to optimize their websites, as well as
11 perform SEO-related tasks that would typically cause the search engines to confuse
12 the two brands that have similar names.
13

14 25. Backlink data was provided to me (in the form of Microsoft Excel
15 spreadsheets) from the third-party source, SEMrush. SEMrush.com is an industry-
16 standard tool provider that provides search engine position data, advertising data, as
17 well as backlink data. [See Exhibits "2" and "3"] I personally rely on data from
18 SEMrush for my consulting business, and use the tool daily. It is a paid tool (it
19 requires a monthly subscription that I pay each month).
20
21
22
23
24
25

1 26. Each report (spreadsheet) in Exhibit "3" contains a list of links from
2 other websites that were found by SEMrush (or one of their data providers) to one
3 particular website. Each individual spreadsheet I reviewed shows all of the links to
4 one particular website only. [See Exhibit "3"]

5
6 27. There are several data points that I look at that is included in the data
7 provided. This includes the title of the web page that links to the website, the URL
8 where the link appears, the actual "anchor text" or clickable text of the link, and the
9 dates of when the link was first seen and last seen. One of the important data points
10 relative to this particular case is the "anchor text" of or clickable text of each link.
11
12 In the spreadsheets that I reviewed that contain links to one of the Plaintiff's
13 websites, there are links to the Plaintiff's websites that contain "anchor text" that
14 includes the Defendant's brand and trademark. For example, there is a link on
15 another website that uses "University of Metaphysical Sciences", the Defendant's
16 trademark, as the anchor text, and the link points to the Plaintiff's website.
17
18 Therefore, when a website visitor sees that link on the other website, or a search
19 engine sees that link, the website visitor of the search engine thinks that "University
20 of Metaphysical Sciences" is associated with the Plaintiff's website. Another
21 separate example of this would be a link on a website where the "clickable text"
22
23
24
25

1 (anchor text) says, "Target", and when you click on the link it takes you to the
2 Walmart.com website. The person clicking on the link, and the search engines
3 seeing that link, would think that they're being taken to the Target.com website
4 (because of the anchor text saying "Target"), but they end up landing on the
5 Walmart.com website.
6

7
8 28. The search engines, as a part of the algorithms, consider the "anchor
9 text" of a link as an indication of what the website they're linking to is about. So, in
10 the case of links pointing to the Plaintiff's website with the Defendant's trademark
11 as anchor text, the search engines will mistakenly think that the Plaintiff's website is
12 associated with the Defendant's trademark. In the Target and Walmart example
13 above, the search engines would mistakenly think that Target is Walmart.com.
14
15 Since there are most likely millions of links (and other indications) that Target is
16 not located at Walmart.com, then most likely when someone searches for "Target"
17 the search engines will not show Walmart.com. However, in the case of the
18 Defendant's and the Plaintiff's websites, there are a lot less links overall to the
19 websites. Therefore, only a small number of links from any website that includes
20 the anchor text of the Defendant's trademark that also points to the Plaintiff's
21 website most likely has a large impact. Not only does it cause confusion between
22
23
24

1 the Plaintiff and Defendant's websites and brands, these links can cause the search
2 engines to think that the Defendant's trademark and brand is associated with the
3 Plaintiff's website. This is why, in my opinion, that for certain keyword searches
4 that the Plaintiff's website is showing up in the search engine results pages in a
5 higher position over the Defendant's website.
6

7
8 29. It is also my opinion, after reviewing the links to the Plaintiff's website
9 link data, that the links created with the Defendant's trademark pointing to the
10 Plaintiff's website(s) are 'unnatural' in nature. It is not normal for a website to create
11 a link with the Defendant's trademark pointing to the Plaintiff's website(s) unless
12 some sort of manipulation is going on. In my opinion, the only party that would
13 benefit from links pointing to the Plaintiff's website(s) with the Defendant's
14 trademark would be the Plaintiff. There is no incentive for the Defendant to create
15 links to the Plaintiff's website with their trademark, as it would only "hurt" them,
16 and be a benefit for the Plaintiff. Therefore, I can only conclude that these links to
17 the Plaintiff's website(s) using the Defendant's trademark were created by or on
18 behalf of the Plaintiff. The Plaintiff either created these links themselves, or they
19 had someone else create them on their behalf.
20
21
22
23
24
25

1 30. Some websites will naturally gain links from other websites for
2 various reasons. For example, when someone creates a web page, they may add
3 links to more than one website. The website owner may link to more than one
4 website in an effort to hide the fact that they're adding a link to one particular
5 website. The website owner may create a web page about one particular keyword
6 phrase or search query, in an attempt to "rank" or be positioned higher up in the
7 search engine result for that keyword. In those cases, they will include links
8 pointing to websites already positioned in the search engine results for that keyword
9 phrase. For example, if I created a web page about "discount retailers" and wanted
10 to be positioned higher in the search engine results for "discount retailers", I would
11 most like list some of the discount retailers such as Target and Walmart and link to
12 their websites. I would consider these "natural" links to a website that typically
13 occur as illustrated in the metaphysicsuniversity.com backlinks attached as Exhibit
14 "3". When performing search engine optimization for a website, one of the main
15 strategies is to try to obtain links to that website. Some SEOs will create web pages
16 on other websites that link back to the website, typically using the "anchor text" that
17 includes the trademark or brand of that website. This technique is called "link
18 building", and building links to the website. However, when working on building
19
20
21
22
23
24
25

1 links to a website, it's natural to include links that include the trademark or brand in
2 the anchor text: it's not natural to include links that include the trademark of your
3 competitor in the anchor text.
4

5 I declare under penalty of perjury under the laws of the United States of
6 America that the foregoing is true and correct. Executed at Kaufman, Texas this
7 28th day of July 2022.

- Domain Name Strategy
- Website Analytics
- Content Creation & Copywriting
- Keyword Research
- Competitive Analysis
- Social Media Advertising Management, Including Facebook and Twitter ads
- Domain Name Expert Witness
- Online Reputation Management Expert Witness

EMPLOYMENT HISTORY

Hartzer Consulting, www.Hartzer.com

December, 2016 to

Present

SEO Consultant, Domain Name Consultant

Search Engine Optimization Consultant, providing highly technical SEO audits for websites. Through my consultancy, I provide monthly ongoing SEO, link audits and cleanup services, social media marketing, paid search management, and digital marketing strategy for clients, worldwide. I also provide search engine optimization services such as keyword research, link building, SEO audits, and other SEO implementation tasks for SEO agencies on an hourly basis.

SEO and Digital Marketing agencies outsource their SEO work to me on a regular basis, hiring me for their most difficult projects. I provide expert witness services for litigation, as well as litigation support for Search Engine Optimization and Domain Name cases. I've been retained on cases including SEO, domain names, and domain name valuations. I have provided expert witness reports related to SEO and domain names in Federal court. List of cases available upon request.

DNProtect, www.DNProtect.com

February, 2020 to

Present

Director and Co-Founder

Director and Co-Founder of DNProtect, the leading risk management service for internet domain names. I created the algorithm behind DNP Score, which is a type of risk scoring system for domain names. I manage and run the service, maintain the DNP Score algorithm, and assist in the recovery of stolen domain names. DNProtect also provides Domain Name Protection services.

Verified Domains , Verified.Domains

June, 2014 to January 2019

Co-Owner, Inventor, Addison, Texas

I invented and was co-owner of a patent-pending service that provides complete background checks for domain names. The service included a 150-point check to ensure that a domain name is clear and does not have any problems that would prohibit it from being used in the future for a website. Many domain names have been used in the past and some have a bad history, including search engine spam, ownership issues, email spam issues, and a history of hosting malware. Verified Domains was the first-ever and only complete background check that is similar to a vehicle history report for cars and trucks. The service offered up to a \$50,000 guarantee.

Advice Interactive, AdviceInteractiveGroup.com

May, 2016 to December 2016

Senior Vice President, Agency Services, McKinney, Texas

Ran a successful, profitable, digital marketing agency. Reporting directly to the CEO and CFO of the parent company, I was responsible for all daily operations of the agency, which provided digital marketing, search engine optimization, search engine marketing, content marketing & research, and web design & development services. Client base included 45+ clients, including retail and reseller (wholesale) accounts. Managed staff of 40+ employees and contractors across five different departments, located in 3 different countries.

Globe Runner, GlobeRunner.com

November, 2013 to May 2016

Senior Strategist, Addison, Texas

Implemented search engine optimization campaigns for clients. Performed full technical SEO Audits and Link Audits on client websites. Performed domain name research on New gTLD domain names and wrote white papers and case studies that reported the results. Created and launched the Verified.Domains service, the first-ever comprehensive background check for domain names. Featured speaker and keynote speaker on SEO and domain name issues at conferences worldwide, including search marketing and ICANN meetings.

Standing Dog Interactive, StandingDog.com (wPromote.com)

June, 2010 to Oct., 2013

Director of Search Engine Optimization, Dallas, Texas

Managed and implemented search engine optimization campaigns for clients. Performed full technical SEO Audits and Link Audits on client websites. Built the SEO Department from a team of 5 SEO Specialists to a team of 16, including SEO Specialists, SEO Managers, and Technical SEOs. Trained all new SEO employees on SEO processes and procedures, and trained all new company employees on SEO 101 issues. Focused on organic search engine optimization, link acquisition, blogger outreach, and highly technical SEO & Link Audits that included near-term and future SEO strategies and recommendations.

Accomplishments

- Designed, documented and implemented companywide search engine optimization processes and procedures.
- Set up training program for new SEO Department employees.
- Configured and managed 20+ cloud servers for use by SEO Department employees.

- Grew SEO client base from 200+ clients to 1000+ monthly (and annual) retainer clients in 3 years.
- Achieved Results: Improved clients' overall online visibility, increased clients' search engine rankings.
- Performed technical Link Audits of client websites, cleaning up subpar work done by other SEO firms.

Utilized SEO best practices to achieve top 10 search engine rankings for clients in the competitive travel and hospitality industry, as well as other competitive industries.

Vizion Interactive, VizionInteractive.com

February, 2008 to February, 2010

Search Engine Marketing Manager, Irving, Texas

Managed and implemented SEO search and SEM campaigns for clients. Performed full SEO Audits on client websites. Wrote and promoted client blogs as a ghost writer, on a systematic basis. Set up and managed clients' social media accounts. Focused on organic search engine optimization, link acquisition and link optimization, content creation, and social media marketing.

Accomplishments

- Designed, documented and implemented companywide SEO and SEM processes.
- Researched and recommended Project Management System
- Result: Vizion quadrupled its client base within 12 months.
- Wrote blog posts and articles for clients that frequently went viral on social media networks.
- Results: Improved online visibility, increased the number of links to websites, and optimized search engine rankings.
- Utilized SEO best practices to achieve top 10 search engine rankings for clients in very competitive markets.

MarketNet, MarketNet.com

September, 2005 to February, 2008

Search Engine Marketing Manager, Dallas, Texas

MarketNet was a leading Web Design firm based in the Dallas, Texas area. Hired as practice manager to develop Search Engine Marketing Service offering. Developed PPC (Pay Per Click), organic SEO, SEM and SEM training as service offerings.

Accomplishments

- Established the search engine marketing service offering for the company
- Lead SEO, SEM, PPC and SEM training consultant for all clients.
- Hired, cross-trained and managed two other SEO specialists

- Managed PPC campaigns on Google AdWords and Yahoo! Search Marketing for clients, some with over 500,000 keywords
- Frequently reduced clients' Pay Per Click (PPC) annual ad spend by improving their organic, natural search engine rankings.
- One client reduced their annual spend from \$180,000 per year to less than \$2000 per year because of better organic rankings.
- Intec Telecom Systems February, 2001 to September, 2005
Search Engine Optimization Specialist and Webmaster, Dallas, Texas

Intec Telecom Systems was an international telecommunications software company.

Responsibilities: Webmaster and SEO for company website, as well as over 20 product websites, including CarrierAccessBilling.com

Accomplishments

- Increased website traffic via top search engine rankings at search engines.
- Top search rankings were responsible for producing leads & inquiries that produced millions of dollars of sales annually.
- Editor, Webmaster, and Website Designer of the internal company intranet website
- Administrator and Moderator for Intec Telecom Systems' customer forum/message board

Non-Profit Industry Organization

Dallas/Fort Worth Texas Search Engine Marketing Association www.DFWSEM.org

Founder January, 2004 to Present

- D/FW Search Engine Marketing industry trade group
- Founded the organization, personally inviting the original members to participate
- Host, designed, and currently maintain the organization's website and other duties, as needed.
- Current board member of DFWSEM, helping organize the annual State of Search conference.

Skills

- Public Speaking: frequent sought-after speaker at search marketing industry conferences including:
 - Pubcon (Austin, Boston, Dallas, Las Vegas, New Orleans conferences)
 - Search Engine Strategies and SMX (Toronto, New York, San Jose, Chicago conferences)
 - State of Search conferences, Dallas, Texas

- Rocks Digital Marketing conference, Addison, Texas
- NamesCon conferences, Las Vegas, Nevada
- Digital Summit conferences (Washington, D.C., Raleigh, North Carolina)
- ClickZ Marketing Conferences, Toronto, Canada
- Keynote address at domain name conference in Beijing, China
- Invited guest speaker at Domain Name industry association events, held at ICANN meetings worldwide
- Over 20 years of search engine optimization experience.
- United States Brand Ambassador, Majestic.com
- United States Brand Ambassador, OnCrawl.com
- Expert Witness, various legal and court cases involving Search Engine Optimization, Domain Names, and Social Media.

EDUCATION

University of South Florida, Tampa, Florida

Bachelor of Arts Degree

English Major (Professional and Technical Writing emphasis)

Writing samples, references, and litigation experience available upon request.
